Professional experience

bARBARA Í gONGINI is a fashion brand based in Copenhagen. The aim of the company is to create Nordic clothing based on a conceptual approach to the process, where experiments with forms provide the setting for the visual motive in the design.

bARBARA Í gONGINI creates clothing, which is at the leading edge of the trade. bARBARA Í gONGINI furthermore participates very actively in the artistic debate in the Nordic countries. During the work, interdisciplinary co-operation with other artists within music, photography, film, etc, is emphasised and this co-operation nourishes inspiration during the design process itself.

High quality and artistic responsibility comprises all parts of bARBARA Í gONGINI's processes. This contributes to local and global responsibility towards our customers for our products. The company does not aim at quick growth or high volume, but will operate in a way, which ensures that a high level of innovation and quality can be sustained. The overriding objective of the company is to be among the pioneering leaders within womenswear internationally
